☐ 2 files

☐ 4 files

☒ 5 files

☐ 9 files

QUESTION 2 OF 2

How about a quick quiz to see if you're following along with how merging works.

Let's say a repository has 4 branches in it:

- master
- allisons-mobile-footer-fix
- nav-updates
- jonathans-seo-changes

The changes on `master` and `allisons-mobile-footer-fix` need to be merged together. If HEAD points to `allisons-mobile-footer-fix`, which branch will move when the merge is performed?

- ☐ master
- ☒ allisons-mobile-footer-fix
- ☐ nav-updates
- ☐ jonathans-seo-changes

The screenshot displays a video player interface for a lesson titled "Lesson 4: Using GitHub to Collaborate". The video content shows a terminal window with the following output:
